

How to Register a Team

1. In order for an individual or a team to participate in the Intramural Sports program, they should attend the general meeting for that particular sport. One member of the team should attend this meeting where specific rules, regulations, requirements, and timeline information will be reviewed and discussed. Although attendance at general meetings is not required, teams will be responsible for all material covered during the meeting whether they attend or not, and attendees will receive priority registration, so attendance is highly encouraged.

2. Teams with a representative at general meetings will receive both a roster form and a meeting ticket. To receive priority registration both the meeting ticket and the roster form must be turned in the day following the general meeting. Two days after the general meeting priority registration will end and all teams are eligible to register (no meeting ticket is needed).

3. Rosters forms must be completely filled out to be accepted! This includes WIN numbers for all players and designating a manager and assistant manager w/ valid email address.
